

To whom it may concern:

It has been brought to my attention that there is a proposal to allow LPFM stations to take priority over current FM translator service. I understand K-LOVE radio, and I assume AIR-1 radio, currently use these stations as translators, allowing them the ability to transmit their positive message. I hope and pray that there is no way you will allow this! These stations offer what is a declining and rare opportunity for decent entertainment these days. There are few places, such as these stations, where whole families can hear positive and encouraging music and commentary, where unity and respect go hand in hand. These are qualities communities often esteem but seldom achieve. Many don't realize what is currently right at their fingertips. Let us embrace what we have, not tear down something good for who knows what.
